

Discover Chester

Here, in **Chester**, the evenings are peaceful and inviting as you walk the friendly streets of Historic Downtown and all of the historic neighborhoods. All of our neighborhoods are special and diverse from quaint and close-knit mill villages; a community of cottages that developed around one of the earliest and finest educational institutions for freedmen; a community with large, diverse architecture, old oaks, magnolias, and camellias; and many other small unique pocket neighborhoods all around town.

Linger a little and explore our shops and diners, some are just a short walk from downtown. Our website can only show you the tip of the iceberg of what Chester has to offer whether you are visiting or planning to move permanently to our lovely community.

It only takes one visit to see that this is one of the regions only remaining small towns containing big charm with metropolitan amenities close by.

Welcome to Chester
