

In a proactive effort to minimize COVID-19 exposure, the City of Chester will not open the Wylie Park pool this year. Due to the increased number of COVID-19 cases, the safety of the community and the staff is the number one priority for the City of Chester Parks and recreation and City administration.

All patrons are reminded that the City of Chester Parks and Recreation offices are closed and rentals are halted until further notice. Parks, playgrounds and the tennis courts are open to the public at their own risk. Citizens patronizing the parks, playgrounds and tennis courts should maintain social distancing and not gather in large groups of 10 or more.
